New Multicultural Preschool Class!

Our new Multicultural Preschool Class will consist of students who primarily speak a language other than English at home. The objective of the class is to teach preschoolers basic English words, including shapes, numbers, ABCs, colors, months and days of the week. The class will be structured the same as the other Veterans Park District preschool classes integrating the same Fun Shine curriculum.

The major purpose of this preschool class is to give extra attention to students who are in the process of learning the English language. Children in this class will learn to better communicate in English which will prepare them for a successful kindergarten and future learning experience. We hope preschoolers enrolled in this class will feel more comfortable knowing they can relate to other children who also are in the process of learning English.
